FAO Jayne Hallam

Dear Jayne,

A6MARR CPO/SRO Inquiry OBJ/41 68C-16908

Thank you for your recent letter dated 5 August 2014 regarding the A6 - A555 Side Roads Order Public Inquiry. Having reviewed the documentation and statement of case again, I think I will withdraw my objection.

I am still concerned regarding the length of time this work will take to be completed. I do have reservations regarding the air and noise pollution caused during the development process and after its completion. I also wonder how this will affect the value of my property. However, I do not think any of this will stop the work going ahead and I have been satisfied with the responses to my objections, now that they have been confirmed in writing.

I will notify the Department of Transport in writing, but if you could make all other parties concerned aware, it would be appreciated.

Thank you.

Yours sincerely,

Vanessa Richardson (Ms)
